Welcome to the site

With the wide variety of music in our churches, this site seeks to provide a number of recording styles:

- **Pipe Organ** hymns suitable for traditional churches.
- **Piano**. There are the un-embellished 'simple piano' and the embellished 'mainly piano' recordings which are suitable for playing in those churches which prefer a piano to the organ, or in small groups or home church environment.
- **Piano & Organ**. These are the Organ recordings with a basic piano recording added. Very suitable for learning new hymns as the melody is clearer, and also in those churches that like the Organ sound as well.
- **Band**. There are 'small band', 'swing band' and 'mainly piano' recordings. You can select the style that best suits your church needs. (Note: these band recordings are computer generated.)
- **Piano & Instrumental**. Starting with the computer generated Band files, a midi file is generated, that is then played into the Garritan Virtual Instrument Libraries. The melody is usually a solo instrument (violin, trumpet, horn etc) with a bass and piano accompaniment.

Copyright Music previously available on this site is now available from Rev Wayne McHugh's site. Click [here](#).
